THE NEXT IS AUSTRIA-HUN-GARY AND THEN RUSSIA.

(Special to The Herald.) Washington, May 3.—The treasury the United States for the nine months ending with March, 1903, was 494,425, against 370,575 for the corresponding months of last year. From this it is prophesied that the fiscal year which ends on June 20 will have witnessed greater immigration into this country than any preceding year, except 1882, when the total was 783,992. The mainrity of the immigrants come from when the total was 783,992. The majority of the immigrants come from Italy, the total from that country during the past nine months being 129,800. The next largest contributor to the population of the United States by this method is Austria-Hungary, which, during the same period, has sent us 122,224 of her valuable subjects. The third in rank is Russia, from whom we got \$1,731. The other countries from which immigrants come in large numbers are Sweden, Germany, Ireland, Japan, England, Norway and Roumania.

In the March summary of internal commerce, issued by the treasury bureau of statistics, there appears a resume of the domestic trade movements for the first quarter of 1903. It shows that for the months of January, February and March of the current year the receipts of livestock at the five leading markets were 7,607,901 head, compared with 3,030,852 head last year and 7,646,572 head in the preceding year for corresponding periods. BRITISH KING WENT TO CHURCH

(Continued from Page 1.)

Edward had been assassinated gained circulation here this morning. This caused a feeling of uneasiness until it was ascertained that the rumor was untrue and that the Sunday programme of the royal visit was being carried out in Paris without a hitch. The rumor that King Edward had been assassinated caused great alarm in London official and court circles. Anxious inquiries concerning the truth of the report were made, and from Buckingham palace telegrams were immediately sent to Paris. The replies that there was no truth in the rumor brought intense relief to all classes of society.

The principal question still remaining to be settled is the tariff. The United States and Japan are willing to concede an increase in the duty on foreign imports to 10 per cent, as compensation for the abolition of the likin, instead of the 12½ per cent provided for in the British treaty. The Japanese treaty, like the American treaty, provides for the opening to trade of Manchurian towns.

IMMIGRATION Unless the Powers Prevent, Turkey Will Stop Bulgarian Atrocities.

London, May 3.—Owing to the existing censorship it is still impossible to obtain reliable news from Salonica. The reports of a general massacre there probably are exaggerated, but the statements that several hundred were killed emanate from various points, including Constantinople, where it is alleged also that Turkey has decided to send an ultimatum to Bulgaria. Two Italian warships have arrived at Salonica and the porte, fearing that foreign troops will be landed, has requested Austria to withdraw her squadron. It is reported from Uskub, European bureau of statistics has issued a report on immigration, in which it is stated that the total immigration into the United States for the nine months.

TOO MUCH HOLY GHOST.

Preacher Has "Revelation" and

Loses His Charge.

Columbus, O., May 3.—Rev. Paul L.
Johnson was dismissed from the pastorate of St. Matthew's Lutheran church by the congregation today because of his declaration made from the pulpit that he has received some new revelations on the Bible, particularly with regard to the baptism of the Holy Ghost and to faith in Christ.

He was remarkably successful in his pastoral work at St. Matthew's church, and had just completed the erection of a handsome edifice for his congregation.

The doctrine, which he preached to his congregation last Sunday for the first time, is that after earnest and long praying one may receive a real baptism of the Holy Ghost and that after that can heal diseases and perform other miracles by the aid of faith. Loses His Charge.

HAD NARROW ESCAPE

Erastus Anderson is Carried Over a Steep Embankment With His Wagon.

Richfield, May 2.—Erastus Anderson of Armabelia escaped from a serious situation a few days ago very luckily. He was rounding a sharp turn in the road with a load of hay between the Hanchett ranch and town, when his team, a pair of colts, became scared at another team and wagon which suddenly came into view. They began pulling off the road over the grade. Mr. Anderson jumped to the upper side, but the hillside was very steep and he slipped down between the horses and the front wheels. The wagon was pushed over the grade and Mr. Anderson with it into the water at the foot of the hill. The hayrack tumbled off the running gear and the team dashed with this on the upper side of the other outflet and forced that team and wagon off the grade, but doing no serious injury. Mr. Anderson was considerably bruised, but managed to get out of the water.

Soren Nielsen of Central is laid up with a very badly injured foot received in a peculiar manner. He was riding on a woodrack in the West mountains, with his feet hanging over the side of the rack. While his attention was occupied in another direction a projection with very sharp edges, and projecting from the upper side of the road caught his foot and locked it against the wagon wheel. The rock cut into the foot to the bone and otherwise badly bruised it. He had a very palnful trip home.
